Delivery Address

The undersigned, acting on behalf of and as agent for the contractor/owner of the property, is receiving lumber, hardware or miscellaneous building materials (which may or may not include manufactured, pre-engineered trusses). In the delivery of said building materials, the undersigned has requested that the driver place the material beyond the curb line or on a structure above grade.

As a delivery policy, it is acknowledged that this store does not accept responsibility for any on-site property damage beyond the curb line while in the process of delivering construction materials on the premises, as directed by the individual receiving the goods. (On-site property damage may include, but is understood to not be limited to, broken sidewalks, curbs, driveways or landscaping, mailboxes, fencing, buried irrigation or utility lines.)

Additionally, it is understood that this store does not accept responsibility for any on-site property damage to any structure above grade where the receiving party has directed the driver to place the materials on or near the structure, or when delivery equipment such as trucks, forklifts or cranes must maneuver on, over or around the structure to position the delivery on-site, as directed by the individual receiving the goods.

It is also understood that protection from precipitation or wind following delivery is the contractor's/owner's responsibility. All deliveries are subject to easy access. The safe placement of the building materials on the premises is at the sole discretion of the driver.

In consideration of the terms of the aforementioned delivery policy, the undersigned certifies that he/she is, or is acting as the agent for, the contractor/property owner and hereby waives all claims for any property damage arising from the delivery of these building materials onto the delivery address listed above.
